

Corporate Profile

Rainer J. Koll President and CEO

Rainer J. Koll is the President and CEO of Stellar Solutions Aerospace Limited (SSAL), a post he holds since February 2010. In this role Mr. Koll is responsible for the overall operation of SSAL, a UK based leading provider of direct systems engineering, programme management and strategic planning support for significant aerospace programmes. His engineering and leadership background in the aerospace and satellite communication industries uniquely prepares him to cement the development of international cross-sector relationships with key decision makers in the commercial, government, and science sectors.

Prior to joining Stellar Aerospace, Koll served as Managing Director and Vice President of Thales Avionics Ltd. and as the Managing Director of RJK-Consulting, his own management and technology firm, serving a prominent roster of clients including Lufthansa, T-Mobile, VT Miltope, Thales, TriaGnoSys, ESA and the EC. He holds an MBA from City University Business School in London, a Master of Science degree from Goethe University, an engineering degree from Werner von Siemens Technical College in Frankfurt. Rainer J. Koll acts as researcher and proposal evaluator for the European Space Agency and the EC. He is a Fellow of the Royal Aeronautical Society, and member of the Institute of Directors and the London Chamber of Commerce.

Mr. Koll holds dual British and German nationality and resides in Hertfordshire, UK, with his wife and two children.
